

# New upgrade, LEVI 2070 shine debut!

2018-01-12 Victoria control

Dimensional control LEVI series man-machine interface since it was introduced in 2006, up to 12 years, a step-by-step improvement and stability, and gradually develop one of Victoria's most classic products. Among them, LEVI 7-inch man-machine interface that LEVI700 series of applications is particularly extensive.

In the road to provide customers with more excellent products, Victoria control actively explore, on the basis of LEVI700, we make another breakthrough, the **new product - LEVI2070 heavy birth!**

**LEVI2070 different from other products LEVI series, with a new look, in the perfect replacement for the same 7-inch LEVI700LK, LEVI700EL, LEVI700EM, in addition, it also has five major functional improvements.**

- 1 Mask touch the display area updated to hollow design, more adapt to changes in the environment when the device is used to avoid the screen will occur at a special temperature shrinkage, bulging phenomenon.

- 2 Change the position of the interface from the usual back to the lower, the wiring extends from the vertical direction, greatly saving installation space, improve wiring messy.

- 3 Further strengthen the system security upgrade, eliminate hidden dangers, and resolutely safeguard the user's right to use the system engineering.
- 4 A physical serial port can simultaneously connect two devices to communicate, support RS232 / RS422 / RS485 interface to meet the user's communication needs.
- 5 Use LEVIStudio software, support U disk / SD card storage capacity of up to 32G, to meet the user's storage needs.

**Have you been in contact with LEVI and** would you like to know the perfect features of this long-established product line?

**Have you used LEVI,** would like to know what this new product can bring you a whole new experience?

**Message your area and contact information, all the information the first time to you!**

Dimensional control V-BOX Hui network system and roll bonding machine laminating machine application article, is competing for "annual industrial interconnect products" and "annual application case" two awards, **scanning two-dimensional code, select the vote, you can participate in the 500 Yuan cash draw!** Come call us now!
